Boise, Idaho 83706

March 16, 2004

Dear Mr. Dreher,

We feel that it is necessary for us to make a water call for the fulfillment of the following water rights ;

IDW-R 36-15180 dated 4-19-1929 4.99 cfs  
IDW-R 36-2039 dated 7-18-1927 .47 cfs

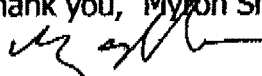

The water records show these flows;

7-15-1997	2.53 cfs
7-15-1998	1.94 cfs
7-15-1999	2.96 cfs
7-15-2000	1.94 cfs
7-15-2001	1.75 cfs
7-15-2002	1.07 cfs

The above measurements show that the flows have dropped consistently, and at this time we are far below the minimum amount of water needed for our historic irrigation purposes.

1. Description:  
The water system is known as the East Ditch flowing from Brigg's Springs.
2. Water Source:  
Brigg's Springs.
3. Injury:  
Ground water pumpers on the North Side.
4. Relief Desired:  
Mitigation directly over the Rim

Thank you, Myron Sheldon
